SKIN & WOUND CARE GUIDELINES MANUAL

Clinical **SKIN & WOUND** **CARE GUIDELINES** **MANUAL**

WHAT'S INSIDE

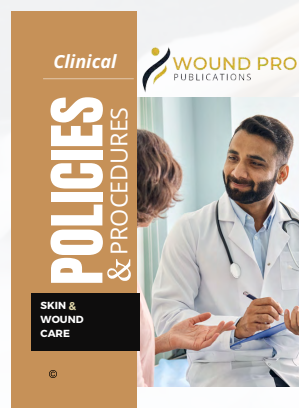

The comprehensive manual includes:
patient polices & procedures, clinical education
and clinician forms.

Clinical

POLICIES & PROCEDURES

VOLUME 1 - 7 SECTIONS

This complete set of protocols, policies & procedures was created from today's current standards of care. These policies provide the proper methodology to keep your agency and clinicians current and legally defensible.

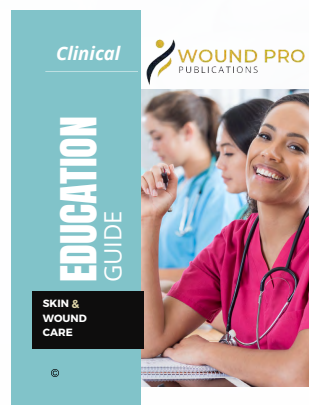

Clinical

EDUCATION GUIDE

VOLUME 2 - 10 SECTIONS

A comprehensive skin and wound management training manual based on today's standards of care. This manual is designed to help keep clinicians current in the care of their clients and patients.

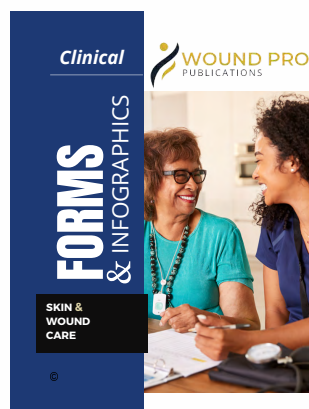

Clinical

FORMS & INFOGRAPHICS

VOLUME 3 - 2 SECTIONS

A complete set of templates, forms, guides and resources to help the clinician properly document and manage a patient's wound care.

CONTENTS

20-22
Dressing: Wet to Dry

33-35
Hydrogel
Application

47
Topical Powder
Application

Section 1: APPLICATIONS

Cast application, total contact..... 1-4

Cast removal, total contact..... 5

Colostomy Bag Application – One Piece system..... 6-7

Colostomy Bag Application- Two Piece system..... 8-9

Dressing, Alginate Application..... 10-12

Dressing, Foam Application..... 13-15

Dressing, Skin Substitutes..... 16

Dressing, Transparent Film Application..... 17-19

Dressing, Wet to Dry..... 20-22

Dressing Change, Non-Sterile..... 23-24

Dressing Change, Sterile..... 25-27

Fecal Bag Application..... 28-29

Hydrocolloid Application..... 30-32

Hydrogel Application..... 33-35

Liquid Skin Barriers Application..... 36

Moisture Barrier Application..... 37

Skin Substitutes..... 38

Silver Nitrate Application..... 39-41

Steri-Strip™ Application..... 42-43

Tape Application..... 44-45

Topical Ointment Application..... 46

Topical Powder Application..... 47

Whirlpool Hydrotherapy..... 48-50

Whirlpool cleaning..... 51

| Procedure performed by: | | Revised: | |
| | | Reviewed: | |

This Skin & Wound Care policies and procedures, enhances operational excellence and patient care.

This should set expectations of the proper way to perform day to day tasks, enhance consistency in how all clinicians practice, reduce mistakes and keep both clinician and patient safe.

Having these in place will assist in protection of the facility by decreasing risk by having all current in the standards of care and policies and procedures written from them in place. If your facility gets in a lawsuit by having current policies and procedures will minimize the risk showing u have the proper pnps in place

Important elements need to be included in order to keep skin and wound care uber organized.

Wound Pro recommends facility to have a system in place to organize all the policies and procedures, and keep timely track of original, revised, and reviewed dates by licensed healthcare professional. Below is a list of others key items you can consider on including.

Key Items to include:

Policy Title/Name

Policy Number (that is still used yes)

Page Count

Cross Ref# (do we need this?)

Distribution (explain what this is if we keep it)

Dept this policy and procedure pertains to

Here are some things to include in your standard layout for policies:

- Date
- Policy Number
- Applicable statutes or laws
- Approvers
- Procedures
- Definitions
- Examples

SECTION 2

ASSESSMENT

Ankle Brachial Index (ABI)
Diabetic Foot Exam
Height Measurement Knee
Monofilament, Testing Semmes Weinstein
Nutrition, Screening
Risk Assessment Screening
Weights, Obtaining

SECTION 2

ASSESSMENT

COMPRESSION

Compression Wrap- Duke Boot
Compression Wrap- Multi-Layer
Compression Wrap- Spiral Pattern
Compression Wrap- Figure 8 Pattern
Compression Wrap- Paste Impregnated (Unna Boot)
Intermittent Pneumatic Compression
Stump Wrap- Above Knee
Stump Wrap- Below Knee
Toe Brachial Pressure Index

SECTION 4

HYGIENE & INFECTION CONTROL

Bag Technique

Hand Hygiene

Infection Control, Airborne Precaution

Infection Control, Contact Precautions

Infection Control, Droplet Precautions

Infection Control, Standard Precautions

SECTION 4

HYGIENE & INFECTION CONTROL

POST OP CARE

Central Line Dressing Change
Flap, Graft, Donor Site Post-Op Care
Infant Circumcision Care
PEG Tube Site Care
Positioning in Bed
Tracheostomy Care

SECTION 5

EDUCATION GUIDE

**SKIN &
WOUND
CARE**

Section 1: The Basics

| | |
|---|----|
| Anatomy of the Skin | 2 |
| Causes of Skin Breakdown. | 3 |
| Further Factors that Contribute to Skin Breakdown | 6 |
| Risk Assessment | 7 |
| Risk Assessment Tools | 7 |
| Positioning | 8 |
| Goals of Positioning | 8 |
| Pressure, Friction and Shear | 9 |
| Prevention – Best Practices. | 10 |
| Skin and Wound Care Team. | 11 |
| Team Members | 11 |
| Purpose and Action Plan | 11 |
| Team Leader Meeting Guidelines | 13 |
| Prevalence / Incidence Tracking | 14 |
| Determining Incidence Rate | 15 |
| Determining Prevalence Rate | 15 |

Section 2: Nutrition

| | |
|---|----|
| Nutrition and Wound Healing | 19 |
| National Pressure Injury Advisory Panel Nutritional Recommendations | 19 |
| Nutritional Assessment Algorithm | 20 |
| Malnutrition Screening and Assessment Tools and Resources | 21 |
| Comprehensive Nutritional Assessment | 22 |
| Malnutrition | 24 |
| Undernutrition | 25 |
| Overnutrition | 25 |
| Protein-Energy Malnutrition | 26 |
| Involuntary Weight Loss | 26 |
| Clinical Presentations of Malnutrition | 27 |
| Dehydration | 33 |
| Risk Factors for Dehydration | 33 |
| Symptoms of Early or Mild Dehydration. | 33 |
| Symptoms of Moderate to Severe Dehydration | 34 |
| Formula for Calculating Baseline Fluid Needs | 34 |
| Body Mass Index (BMI) | 34 |
| Body Mass Index Calculators | 35 |
| Biochemical Data | 37 |
| Albumin and prealbumin | 37 |
| Laboratory Markers of Wound Healing | 38 |
| Wound Healing Nutritional Support | 39 |
| Positive Healing Outcomes with Adequate Nutrition | 39 |
| Types of Nutritional Support | 40 |
| Food Sources to Promote Wound Healing | 40 |
| Wound Healing: Nutritional Benefits and Deficiencies | 40 |
| Plan of Care: Nutritional Support for Wound Healing. | 42 |

Section 3: Overview of Wounds and Treatments

| | |
|---|----|
| Surgical Wounds | 47 |
| Factors Affecting Healing of a Surgical Wound | 47 |
| Healing Process of a Surgical Wound | 47 |
| Wound Closures | 47 |
| Incisions | 48 |
| Dehiscence/Evisceration | 49 |
| Traumatic Wounds | 51 |
| Abrasion | 51 |
| Avulsion | 51 |
| Crush Injury | 52 |
| Lacerations | 52 |
| Puncture Wounds | 52 |
| Skin tears | 53 |
| Medical Adhesive-Related Skin Injury | 55 |
| Types of MARSI | 55 |
| MARSI Signs and Symptoms | 56 |
| MARSI Risk Factors | 56 |
| Complications of MARSI | 57 |
| Skin and MARSI Wound Care Management | 57 |
| Bite Wounds | 59 |
| Dog Bites | 59 |
| Cat Bites | 59 |
| Spider Bites | 59 |
| Human bites | 60 |
| Common Treatment for All Bites | 60 |
| Burn Wounds | 61 |
| Types of Burns | 61 |
| Severity of Burns | 62 |
| Burn Treatment | 62 |
| Lower Extremity Wounds and Ulcers | 63 |
| Types of Lower Extremity Wounds | 63 |
| Causes of Lower Extremity Wounds and Ulcers | 65 |
| Comprehensive Assessment of Lower Extremities | 65 |
| Differentiating Lower Extremity Wounds | 69 |
| Best Practices: Venous Ulcers | 70 |
| Best Practices: Arterial Ulcers | 71 |
| Best Practices: Diabetic Ulcers | 72 |
| Pressure Injuries | 74 |
| Characteristics | 74 |
| Best Practices and Treatment | 74 |
| Prevention | 75 |
| Avoidable and Unavoidable Pressure Injuries | 76 |
| Skin Failure vs. Pressure Injury | 80 |
| Pressure Injury Risk Assessment | 81 |
| Pressure Injury Risk Factors | 82 |
| Interventions to Prevent Pressure Injuries | 83 |

| | |
|---|-----|
| Medical Device-Related Pressure Injury | 83 |
| Overview of Medical Devices and Their Risks | 83 |
| What is a Medical Device-Related Pressure Injury? | 84 |
| MRDPI Risk Factors in Various Groups | 85 |
| Types of Medical Devices, Their Risks and Risk Reduction. | 91 |
| Management of MDRPI | 98 |
| MDRPI Regulation | 100 |
| Malignant Cutaneous Wounds | 105 |
| Overview of Causes, Assessment and Interventions | 105 |
| Recommended Treatments for Malignant Wounds | 108 |
| Reporting and Documentation | 110 |
| Identification of Lesions | 110 |
| Primary Skin Lesions | 111 |
| Secondary Skin Lesions | 111 |
| Moisture-Associated Skin Damage | 112 |
| Incontinence-Associated Dermatitis | 112 |
| Intertriginous Dermatitis | 115 |
| Peristomal Moisture-Associated Dermatitis | 119 |
| Peri wound Moisture-Associated Dermatitis | 119 |
| Classification Tools | 122 |
| Bruises | 122 |
| Skin Tear Classification Systems | 122 |

| Pros and Cons of Wound Photography | 134 |
| Wound Photography Tips | 134 |
| Wound Documentation | 135 |
| General Guidelines | 136 |
| Venous Ulcers | 140 |
| Arterial Ulcers | 141 |
| Neuropathic Ulcerations | 141 |

Section 4: Clinical Wound Management

| | |
|---|-----|
| Wound Healing | 144 |
| Wound Repair | 145 |
| Wound Debridement | 145 |
| Types of Debridement | 146 |
| Debridement Pointers | 147 |
| Pain Management for Debridement | 148 |
| Wound Cleansing | 148 |
| Criteria for selecting wound cleansing agents | 148 |
| Cleansing agents | 148 |
| Mechanical force with wound cleansing | 149 |
| Principles of Wound Infection | 150 |
| IWII Wound Infection Continuum. | 151 |
| Signs and Symptoms of Wound Infection | 152 |
| Diagnostics to Evaluate Wound Infections | 152 |
| Wound Infection Management | 153 |
| Main Components of Wound Infection Management. | 153 |
| Wound Infection Antiseptic Agents | 154 |
| Algorithm for Managing Wound Infection. | 155 |
| Infection Control Practices | 156 |
| Principles of Wound Management | 157 |
| Pack Dead Space | 157 |
| Absorb Excess Exudate | 157 |
| Maintain Moist Wound Bed | 157 |
| Maintain Open Wound Edges | 158 |
| Protect from Trauma and Bacteria | 158 |
| Insulate Wound Bed | 158 |
| Wound Pain | 158 |
| Types of Pain | 158 |
| Environmental Effects | 159 |
| Pain Interventions | 159 |

Section 5 Topical Wound Management

| | |
|--|-----|
| Topical Wound Dressings | 161 |
| Moist Wound Healing | 161 |
| Advantage of Moist Wound Healing | 161 |
| Temperature Effects Related to Moist Wound Healing | 162 |
| Selecting Appropriate Dressings | 162 |
| What is an ideal Wound Dressing? | 162 |
| Factors to Consider | 163 |
| Dressing Change Tips | 163 |
| Topical Wound Dressing Categories | 164 |
| Performance Parameters of Dressing Categories | 164 |
| Alginate Dressings | 166 |
| Collagen Dressings | 167 |
| Composite Dressings. | 168 |
| Contact Layers | 169 |
| Foam Dressings | 170 |
| Honey Dressings | 171 |
| Hydrocolloid Dressings | 172 |
| Hydrofiber/Gelling Fiber Dressings | 173 |
| Hydrogel Dressings | 174 |
| Specialty Absorptive/Super Absorbent | 175 |
| Transparent Film Dressings | 176 |
| Enzymatic Debriding Agents | 177 |
| Compression | 178 |
| Chronic Venous Insufficiency | 178 |
| How Much Compression? | 178 |
| Factors Affecting Compression Prescription | 180 |
| Two Types of Compression Bandages | 180 |
| Factors Affecting Compression | 181 |
| Compression Wrap Tips | 182 |
| Compression Modalities | 183 |

Section 6: Tissue Load Management

| | |
|--|-----|
| Principles of Tissue Load Management | 186 |
| Clinical Considerations While Using Support Surfaces | 187 |
| Algorithm for Tissue Loads | 188 |
| Support Surface Terminology | 189 |
| General Definitions | 189 |
| Types of Equipment modalities | 189 |
| Entrapment | 190 |
| Terminology Related to Foam Overlays and Mattresses | 190 |
| Support Surface Categories | 191 |
| Group 1 Support Surfaces | 191 |
| Group 2 Support Surfaces | 192 |
| Group 3 Support Surfaces | 193 |
| Offloading the Diabetic Foot | 195 |
| Objectives of Diabetic Footwear | 195 |
| Required Characteristics of Diabetic Footwear | 195 |
| Options for Offloading the Diabetic Ulcer | 197 |
| Wheelchair Seating | 197 |
| Checking Wheelchair Fit | 198 |
| Six Basic Measurements for Wheelchair Fit | 204 |
| Types of Wheelchair Cushions | 205 |

Section 7 Adjunctive Modalities

| | |
|---|-----|
| Pulsed Lavage | 208 |
| Whirlpool | 209 |
| Electrical Stimulation | 209 |
| Ultrasound | 210 |
| Hyperbaric Oxygen Therapy | 211 |
| Negative Pressure Wound Therapy | 212 |

Section 8 Pediatric Skin Care

| | |
|--|-----|
| Epidermis and Dermis | 216 |
| Skin at Different Ages | 216 |
| Premature Neonate Skin | 216 |
| Newborn Skin | 216 |
| Infants' and Children's Skin | 217 |
| Skin Assessment | 217 |
| Common Skin Conditions in Newborns and Infants | 218 |
| Wounds and Skin Conditions in Pediatric Patients | 220 |
| General Considerations | 220 |
| Pressure Injuries from Immobility | 220 |
| Medical or Other Device-Related Pressure Injury | 220 |
| Medical Adhesive-Related Skin Injury | 221 |
| Moisture-Associated Skin Damage | 221 |
| Impetigo | 221 |
| Scabies | 223 |
| Atopic Eczema. | 225 |
| Diaper Dermatitis | 226 |
| Epidermolysis Bullosa (EB) | 226 |
| Skin Care Tips for Newborns, Infants, and Children | 228 |
| Umbilical Cord Care | 228 |
| Emollients | 228 |
| Adhesives. | 229 |

Section 9: Palliative and Hospice Care

| | |
|--|-----|
| What is Palliative Care? | 232 |
| Palliative Care Services | 232 |
| What is Hospice Care? | 233 |
| Four Levels of Hospice Care | 233 |
| Hospice Care Services | 234 |
| Differences and Similarities: Palliative vs Hospice Care | 235 |
| What is Palliative Wound Care? | 235 |
| Principles of Palliative Wound Care | 236 |
| Review: Palliative or Curative Wound Care. | 237 |
| Comprehensive Skin and Wound Assessment. | 237 |
| General Considerations | 237 |
| Comprehensive (Holistic) Skin and Wound Assessment | 238 |
| Formulary | 240 |
| Documentation | 240 |
| Plan of Care | 241 |
| Nutrition at End-of-Life. | 243 |
| Skin Changes at End-of-Life. | 244 |
| Skin Failure | 244 |
| Kennedy Terminal Ulcer (KTU) | 246 |
| Trombley-Brennan Terminal tissue injury (TB-TTI) | 246 |
| Skin Changes at Life's End (SCALE) | 246 |
| Common End-of-Life Wounds and Skin Conditions | 247 |
| National Palliative Care Leadership Organizations | 248 |

Section 10: Quality Improvement

| | |
|---|-----|
| Quality Improvement PDSA (Plan, Do, Study, Act) | 250 |
| What is a PDSA Cycle | 250 |
| Questions to consider for PDSA Cycles | 251 |
| PDSA Resources | 252 |
